EuroGOOS
European Global Ocean Observing System

Adopting vocabularies within OceanGliders

Justin Buck on behalf of the OceanGliders data management task team (OGDMTT)

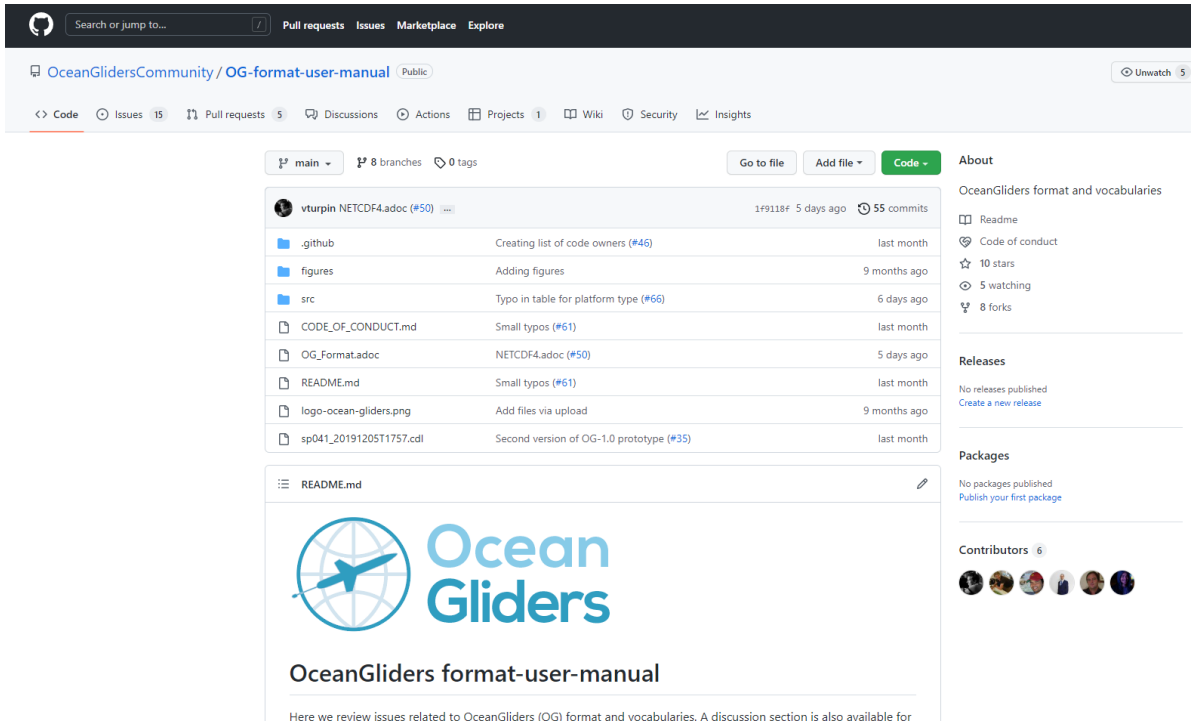
This project has received funding the European Union's Horizon 2020 research and innovation programme under grant agreement No 951842.

Use of vocabularies within OG1 format

The OG1 format is being constrained against vocabularies with a progressive implementation in the format.

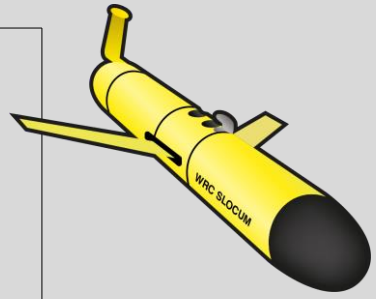
Outline

- Current vocabularies within OG1
- Proposed/pending vocabularies within OG1
- The process to adopt vocabularies within OG1



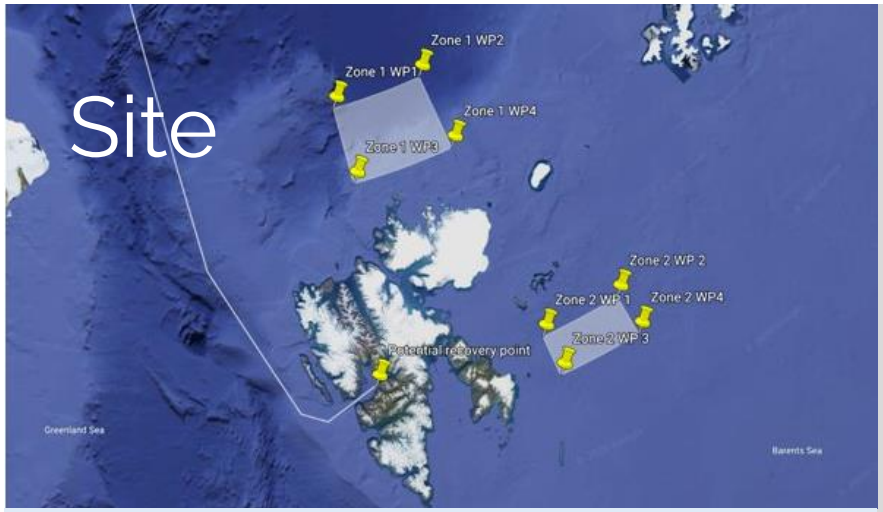
Current vocabularies

Contributors(people)
Agency ID
Institution

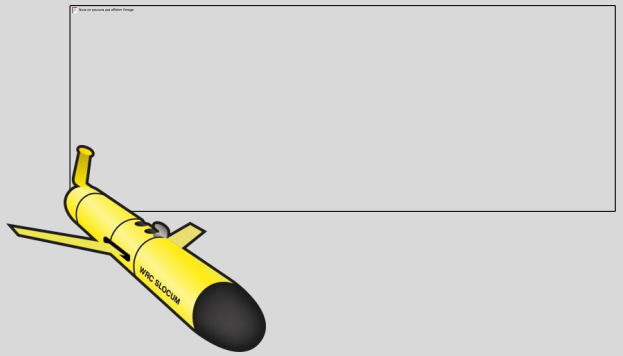


WMO identifier
ICES code
Platform (model/maker)
Sensor (model/maker)
Parameter (variable)

Pending/proposed vocabularies



Agency role



Platform (type)
Parameter (units)
Battery type
Telecom type
Tracking System
Phase

RTQC method

Phase calculation methodology

Data mode

Typical vocabulary adoption process
