

European Data Management Workshop

Summary WS1: GitHub Training & WS3 T&S RTQC

24.06.2022

Soeren Thomsen

These projects have received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 951842 and No 862828

WS1: GitHub Training

- 🔗 Training session 7 was a big success with +25 people
- 🔗 Training during each workshop at the beginning
- 🔗 The training of the OceanGlidersCommunity in basic GitHub skills is fundamental for the long term sustainability of all our activities
- 🔗 The more we are the less work it is per person and the more we can achieve together, tell others to join
- 🔗 Trainers needed: Callum agreed to support this process others? GROOM II support?
- 🔗 Join here: <https://github.com/OceanGlidersCommunity/LearningGitHub/issues/56>

WS3: T&S RTQC

-  Real Time QC Salinity chapter needs work please support Gui and Issy here in the next weeks
-  We aim to release v1.0.0 in the next months to get doi, reward the authors
-  Need motivation to join now? You will get a high impact paper in 2022
-  Preparation of Frontiers summary article link doi
-  Action idea: Link EuroSea work by Ali Aydogdu (CMCC) to the OceanGliders Repo
